• The most reliable grain spreader you can buy.

• Pre-spread disc and inner ring help provide even spreading. The optional pre-spread funnel further enhances even spreading.

• Totally-enclosed, continuous-duty motors mounted outside spreader cone for optimum performance.

• **Standard Spredway®**: 3000 bph, 1/2 hp motor, fits up to 33’ diameter bins.

• **High-Capacity Spredway®**: 3000 - 5000 bph, 3/4 hp motor, fits up to 48’ bins.

• **Super High-Capacity Spredway®**: 5000 - 7000 bph, 1 1/2 hp motor, fits up to 60’ diameter bins.

---

**Gravity Spreader - For Motor Free Spreading**

- Up to 10,000 Bu/Hr.
- Two sizes:
  - 21’ - 30’ diameters
  - 30’ - 105’ diameters
- No motors or cords.
- Unit rotates in response to grain flow, providing uniform distribution of grain.
The Best-Selling Grain Spreader - Spredway®

Outstanding features have made the reliable Sukup Spredway® #1

Easily Adjustable Pan
- The angle of the Spredway® spreader pan can be easily adjusted from the top to control the grain distribution pattern.
- The handle is easily accessible, unlike other spreaders which must be adjusted from below the unit.
- Adjusting the pan matches the grain spread distance to different bin diameters.
- A Split Spreader Pan (standard) divides the grain discharge resulting in a more evenly balanced flow, which makes the spreader operate more smoothly.
- Tools available for easy adjustment.

Uniform Grain Flow
The pre-spread disc and ring, standard on all Spredways, combine to create a uniform flow of grain to the spread pan for even spreading.

Exclusive Pre-Spread Funnel
Most problems with uneven spreading occur when grain does not fall into the center of the grain spreader. The Sukup Pre-Spread Funnel is an optional accessory that directs grain to the center of the Spredway’s pre-spread disc, creating even and uniform spreading action.

Grain Flow Unobstructed
- There are no motors or gear boxes inside the spreader funnel to hamper grain flow.
- Mounting the motor outside of the spreader cone prevents warm grain from overheating the motor.

Totally Enclosed, High Horsepower Motor
All Sukup Spredways are equipped with heavy-duty, high-horsepower motors to ensure optimum performance. Horsepower ratings for the different models are listed in the chart below.

Dependable
- The simple design of the Spredway® includes a machined pulley to ensure that the drive belt remains in position under the heaviest grain flow conditions.
- No gearbox and a minimum of moving parts make Spredway® the most dependable grain spreader you can buy.
- Permanently-lubricated bearings eliminate climbing the bin to grease bearings or oil gears.

Rigid Mounting Brackets
- Special, two-piece design allows for vertical and horizontal adjustment to level the spreader.
- The rigid mount prevents spreader movement.
- Additional hanger brackets are available for mounting in bins that are not compatible with the rigid brackets.
